## Cast Introduction

### Elliot

Elliot is playing basketball with his classmates. Some of the older kids from school show up and challenge Elliot and his friends to a game. A teammate passes long to Elliot, who is just feet from the net, but the star player on the other team steals the ball. A long pass downcourt and a slam dunk finishes the day. Elliot walks back home alone.

### Claris

Today is Claris' chance to show her family she has stage talent. The stage light flares on, and her heart starts racing. The directors are out there, watching. Claris approaches the microphone, but something's not right. A small voice inside tells her that everyone will laugh. A few seconds pass, and the voice grows louder. No longer able to bear it, Claris runs off the stage.

## NIGHTS

In their dreams Elliot and Claris have seen NIGHTS, a being capable of flying freely through the sky and performing the trickiest of aerial acrobatics. But what is NIGHTS? A spirit? A memory? Whatever he, she or it is, NIGHTS plays an important part in the upcoming battle with the evil Wizeman.

## Nightopia in Peril

That night Elliot and Clara return home, thinking of themselves as failures, not realizing that the real challenge is about to begin. In the world of Nightopia where our dreams are played out, an evil being is gaining tremendous power. He is Wizeman the Wicked, and through his creations the Nightmarez, he captures precious dream energy from humans. If he is not stopped, he will rise from the subconscious and enter our world. No power on Earth will be able to stop him.

As Wizeman's Nightmarez start fulfilling his horrible plan, a Nightopian escapes from the dream world and begs the sleeping Elliot and Clara to save the world from the evil being. Just a few moments ago they felt like total failures. But now that the world needs their help, Elliot and Clara feel, for the first time in their lives, a courage growing within them. They accept the Nightopian's desperate request.

The creature explains to them that they need to recover four types of dream energy from Wizeman's lair. Capture a group of large machine-like beings. The four energies are White (representing purity), Green (wisdom), Yellow (hope), and Blue (intelligence).

Wizeman will attempt to steal Elliot and Clara's dream energy and try to confuse them by placing them in strange dream worlds. These worlds are places developed from the depths of their minds. The fifth and rarest of the dream energies, bravery (Red in colour), is the only type of energy Wizeman and his henchmen cannot steal. It is said that the only one not yet under Wizeman's power is NIGHTS, who appears as an aerial robot and is attracted to red dream energy. The Nightopian believes that Elliot and Clara possess this rare energy, and that NIGHTS will come to their aid.

The Nightopian warns that sooner or later Wizeman will send the most powerful of his Nightmarez, his henchman, after Clara and Elliot. The two children will need the help of NIGHTS every step of the way to thwart Wizeman's plans if they are to restore peace to Nightopia.

At the start of the dream, the Nightmares deal almost all of your dream energy except for the most precious and powerful energy of all, bravery. Now it's time to fight back and recover all the dream energy.

Nearby is an Ideya Palace. Just walk right in and NIGHTS comes to your aid! Immediately you start floating off of the platform. Have fun flying!

Each dream has four Mares (stages). In each Mare is an Ideya Capture which guards one of the types of captured dream energy. Collect Blue Clips and give them to the Ideya Capture to overload it and release the stolen dream energy!

After you zap the Ideya Capture, the time it took for you to overload the Ideya Capture and your Time Bonus are listed. Now head back to the Ideya Palace where you'll start the next stage.

Should the timer reach zero before you finish the stage, you fall to the ground. You are once again Cloris or Elliot, and you are now in danger! Wizeman has sent giant Alarm Eggs that track you down when you walk on land in the dream worlds.

Hurry up and finish the stage, otherwise the Alarm Egg will find you and force you to wake up. Night Over!

After you finish the last stage of a dream you are transported to Nightmare, where once again as NIGHTS you battle one of Wizeman's henchman.

## Items

There are many kinds of items that you find on your journeys. Your goal for each Mare is to overload the Ideya Capture and reach the Ideya Palace, but you also have time to explore the stages and discover the game's treasures.

### 1. Colour Chips

Each Colour Chip is worth 10 points. Blue Chips found at the beginning of the stage are used to overload the Ideya Capture. After you destroy the Ideya Capture, collect Gold Chips. The more you collect, the higher your bonus at the end of the stage.

### 2. Star Chips

You are awarded 10 points for each Star.

### 3. Rings

Each time you pass through one you are given 10 points.

### 4. Power Loop

Pass-through this ring and a streamer trails behind you! Loop the streamer for bonus points. The greater variety of circle sizes you make, the higher the bonus.

## Minion Nightmaren

These creatures have overrun Nightopia. Though not as strong as Wizeman's henchmen, many of them can attack. You have 5 seconds on the Timer if one of them hits you. Get the jump on them by grabbing them first!

1. Hollow  
2. Mamu

3. Kircle  
4. Shleep

5. Veral  
6. Cuttle

7. Party  
8. Gao

9. Crewle Pole  
10. Snip

## Paraloop

There are two ways you can obtain an item. One way is to move your character in the direction of an item to have the character touch it. The other way is to perform a Paraloop.

Performing a Paraloop is easy: manoeuvre NIGHTS with the D-Button to loop around Star Chips and Color Chips. The manoeuvre is useful for catching many items at once, though it takes some training to get all the items in one loop.

## Major Scoring

You are rewarded with bonuses for acrobatic skill. The more items you collect and the more rings you move through on one pass, the higher the acrobatic bonus you receive. On the game screen, the word "Link" preceded by a number indicates the number of items you collected and rings you passed through.

Use bumpers or speed up your character to reach distant items for gigantic acrobatic skill bonuses.

## Game Screens

### Nightopia

- 1 Number of Colour Chips currently held
- 2 Time Remaining in Stage
- 3 Ideya Capture Strength Level
- 4 Drill Attack Gauge
- 5 Current Score

When your **Drill Attack Gauge** reaches zero, NIGHTS loses the ability to Drill Attack! You need to pass through Rings to build this gauge back up.

### Nightopia Stage Clear

- 6 Chips
- 7 Bonus
- 8 Level Rating
- 9 Total Score for the Stage

**Chips** is the number of **Gold Chips** you collected for the stage.

**Bonus** is based on the number of Gold Chips you collected. You receive 50 points per Gold Chip.

**Level Rating** is an indicator for the number of Gold Chips you collect. The more you collect, the higher the rating.

### Nightmare

- 1 Remaining Time
- 2 Current Score
- 3 Drill Attack Gauge (see page 18)

### Nightmare Level Clear

- 4 Nightopia Score
- 5 Time Bonus
- 6 Unused Time
- 7 Total Score

The faster you finish this level, the higher your **Time Bonus**. Your **Nightopia Score** is multiplied by the Time Bonus, and this number is added to the Nightopia Score for the **Total Score**.

## Nightmare

After you finish the last stage of a dream in Nightopia, you are transported to Nightmare, the second level in the dreamworld. There, as NIGHTS, you face one of Wizeman's henchmen. The henchman you face depends on the dream you last visited.

Before you battle, your total score, overall Level Rating and stage Level Ratings for the Nightopia dream are displayed.

As in the Nightopia dreams, you have a certain amount of time to finish the level. Each henchman has a unique weakness, and your goal is to find that weakness and defeat the henchman. Should time run out before you finish Nightmare, the game ends.

If you beat the henchman, congratulations! Your overall Level Rating for the dream appears.

The Dream Top Scores screen appears, listing the top five scores for the dream. You can try the dream again by pressing Start and Button A simultaneously, or press Start to bring up the Dream Select screen.

## Dreams

### Clariss' Dreams

#### Spring Valley

Spring Valley is a beautiful world lush with vegetation. Walk on natural stone bridges which cross over small ravines. Strong breezes at the top of the mountains send you to treasures. Other items are hidden in giant trees. Look high and low or you'll miss some of the goodies.

#### Mystic Forest

Stone blocks are solidly in place in some parts of the forest, but pillars lay broken and scattered in others. Traffic signs which don't fit the land seem out of place in the dark and silent surroundings. Look for the base of this dream, a "shining" cave buried deep in the ground. The forest growth here might help send you on your way.

#### Soft Museum

A large museum towers in the middle of a European-style garden. The ground seems to warp underneath you, and red brick roads suddenly end without warning. The museum has no obvious door, so you'll need to find another way to enter.

## Elliot's Dreams

### Splash Garden

Glide above lakeside parks where fountains shoot jets of water high into the sky. Giant blue orbs hold tempting treasures, but knock you off course when you enter them. Plunge into the water and race along the lake bottom, picking up as many items as you can.

### Frozen Bell

The frozen landscape is highlighted by railroad tracks which lead into the distance and towers which soar into the sky. Fly and climb over snowy mountains covered with steep slopes. Look high and low while swinging on the bars, for you can find many goodies. Race the bobbed run to gather Star Chips and Colour Chips.

### Stick Canyon

The canyon is set in the middle of a desert. It is filled with numerous traps which are designed to slow you down. Giant magnets suck in everything that passes. Another type of machine magnetizes you, so that items and creatures stick to you as you pass them. You need to reach amazing heights to get through this dream.
